individually tailored
and priced for you...**

**...but benefits from
the buying power
we can offer**

INTRODUCING THE ASG
PREFERENTIAL
PILOT POLICY

As aircraft maintenance engineers, we are aware that accidents can happen to even the best and most experienced pilots, often through circumstances beyond their control.

We also know that there is a huge difference in how quickly and how much insurance companies pay out.

So, working in conjunction with highly respected Aircraft Insurance specialists Sydney Charles, we have developed a policy that ensures that our clients can benefit from an exclusive insurance product that we believe will provide the best possible cover, at exceptionally competitive rates.

To find out how you could benefit from this policy, please contact Sydney Charles today on **01481 739970** or email **info@sydneycharles.co.uk** quoting 'ASG Preferential Pilot Policy'.

The ASG Preferential Pilot Policy enables you, as a client, to have a completely bespoke policy, tailored specifically to your requirements and priced completely independently for you.

And, because ASG already has a significant number of ongoing policies we are able to benefit from significantly discounted rates, that we are able to pass on to you.

The ASG Preferential Pilot Policy offers:

- Comprehensive cover on hulls and liabilities
- Agreed Value Policies
- **FREE** Vehicle Airside Liability
- **FREE** 24/7 Emergency Helpline
- **FREE** Betterment up to £75,000

What is Betterment?

In the event that you sustain damage to your aircraft you might be surprised to find that most insurers won't cover you for the full cost of repair or the replacing of parts.

Example:

Prop strike at 1,000 hours

TBO: 2,000 hours

Repair cost: £8,000

Cost of repair without Betterment

Insurer factors in the age of the existing propeller and pays accordingly, leaving a shortfall for the policyholder to pay.

Cost of repair with Betterment

The whole cost of the repair or replacement is met by the policy regardless of the age of the existing propeller.
